

DATABASE DIARY FOR BIRD CONTROLLERS

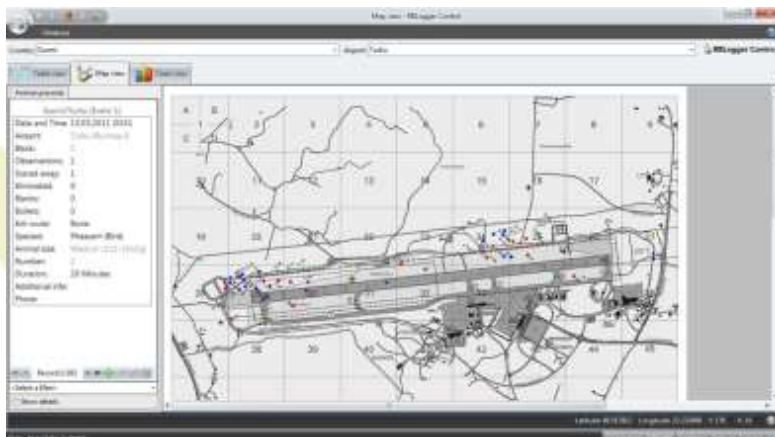

IBSC 2012, 25.-29.6.2012
Stavanger, Norway

Juha Joutsen

Service Manager
Airport Operations
Finavia Corporation

Software for Bird Control

Software for Bird Control

- We were looking for a software to create a database diary for our bird controllers
- Internet proved to be of no use - we were not able to find any solutions
- So we decided to develop it ourselves together with a small local IT-company

Why do we need this diary?

- Getting information of possible bird/wildlife problems in the airport area
- Finding out the areas where the bird/wildlife problem is biggest.
- Helping bird patrols work planning
- Getting a reliable document of prevention work done

4

Juha Joutsen

The requirements were

- Easy to use
- Allows easy reporting and statistics
- Creates a database
